## Add-on for SAP BTP: VANTAiO News Manager

Relevant information in the context of the topics and processes within the company!

Mainz, April 2024

# VANTAiO News Manager

## Intelligent control center for SAP

The VANTAiO News Manager is a highly functional and comprehensive solution for the convenient maintenance, management and target group-specific display of **information objects** and notifications of all kinds. Output is possible on a wide range of devices: from desktop PCs to smartphones, tablets and TVs.

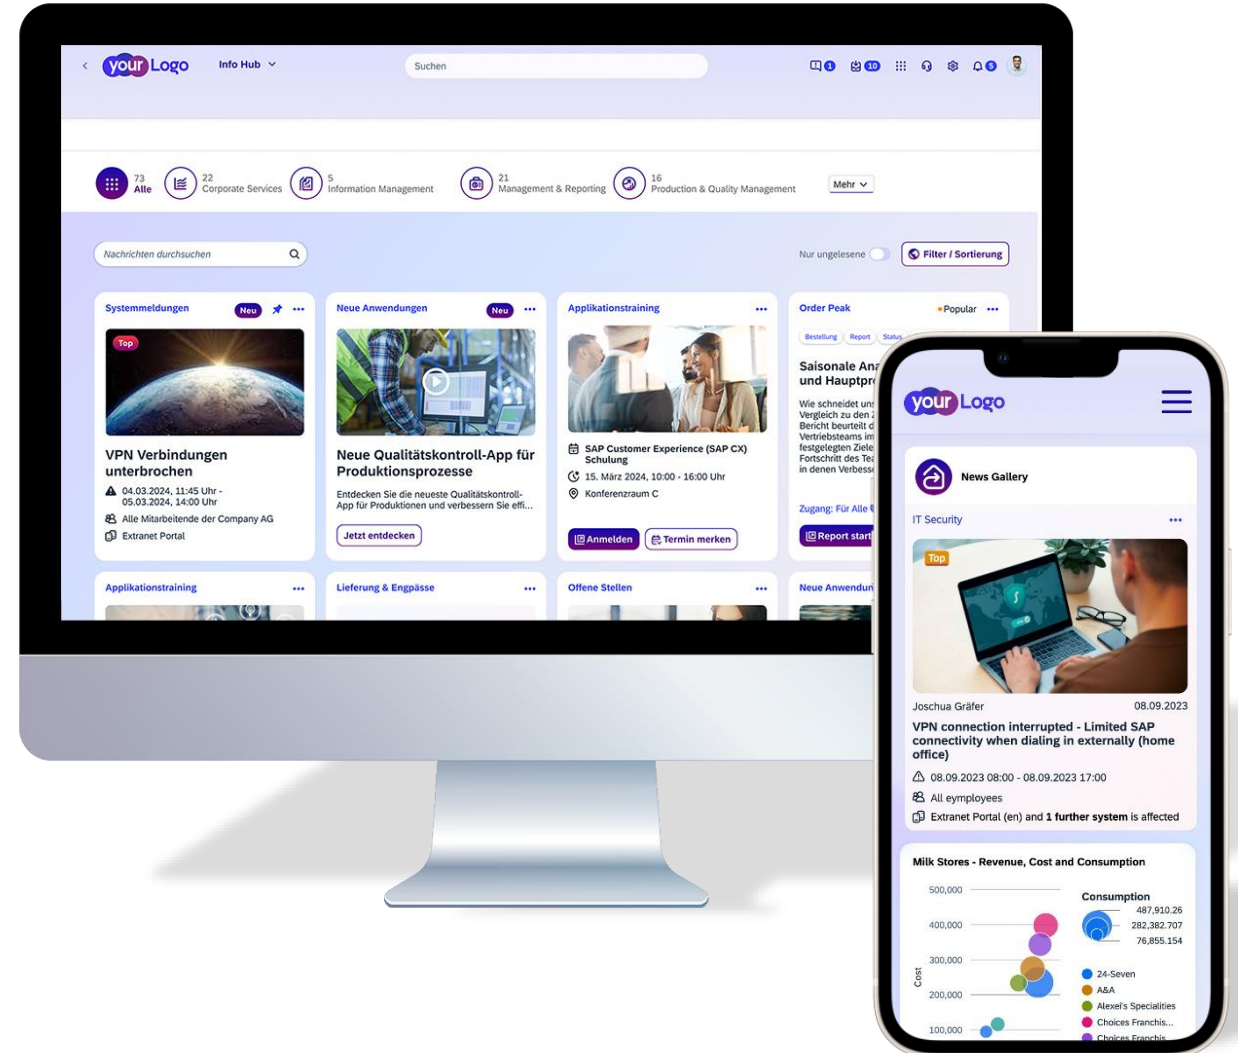

The VANTAiO News Manager for SAP BTP has received the WINNER award at the German Innovation Award in the competition class "Excellence Business to Business", in the category "Information Technologies, Functional Software".

# Communication in the workplace

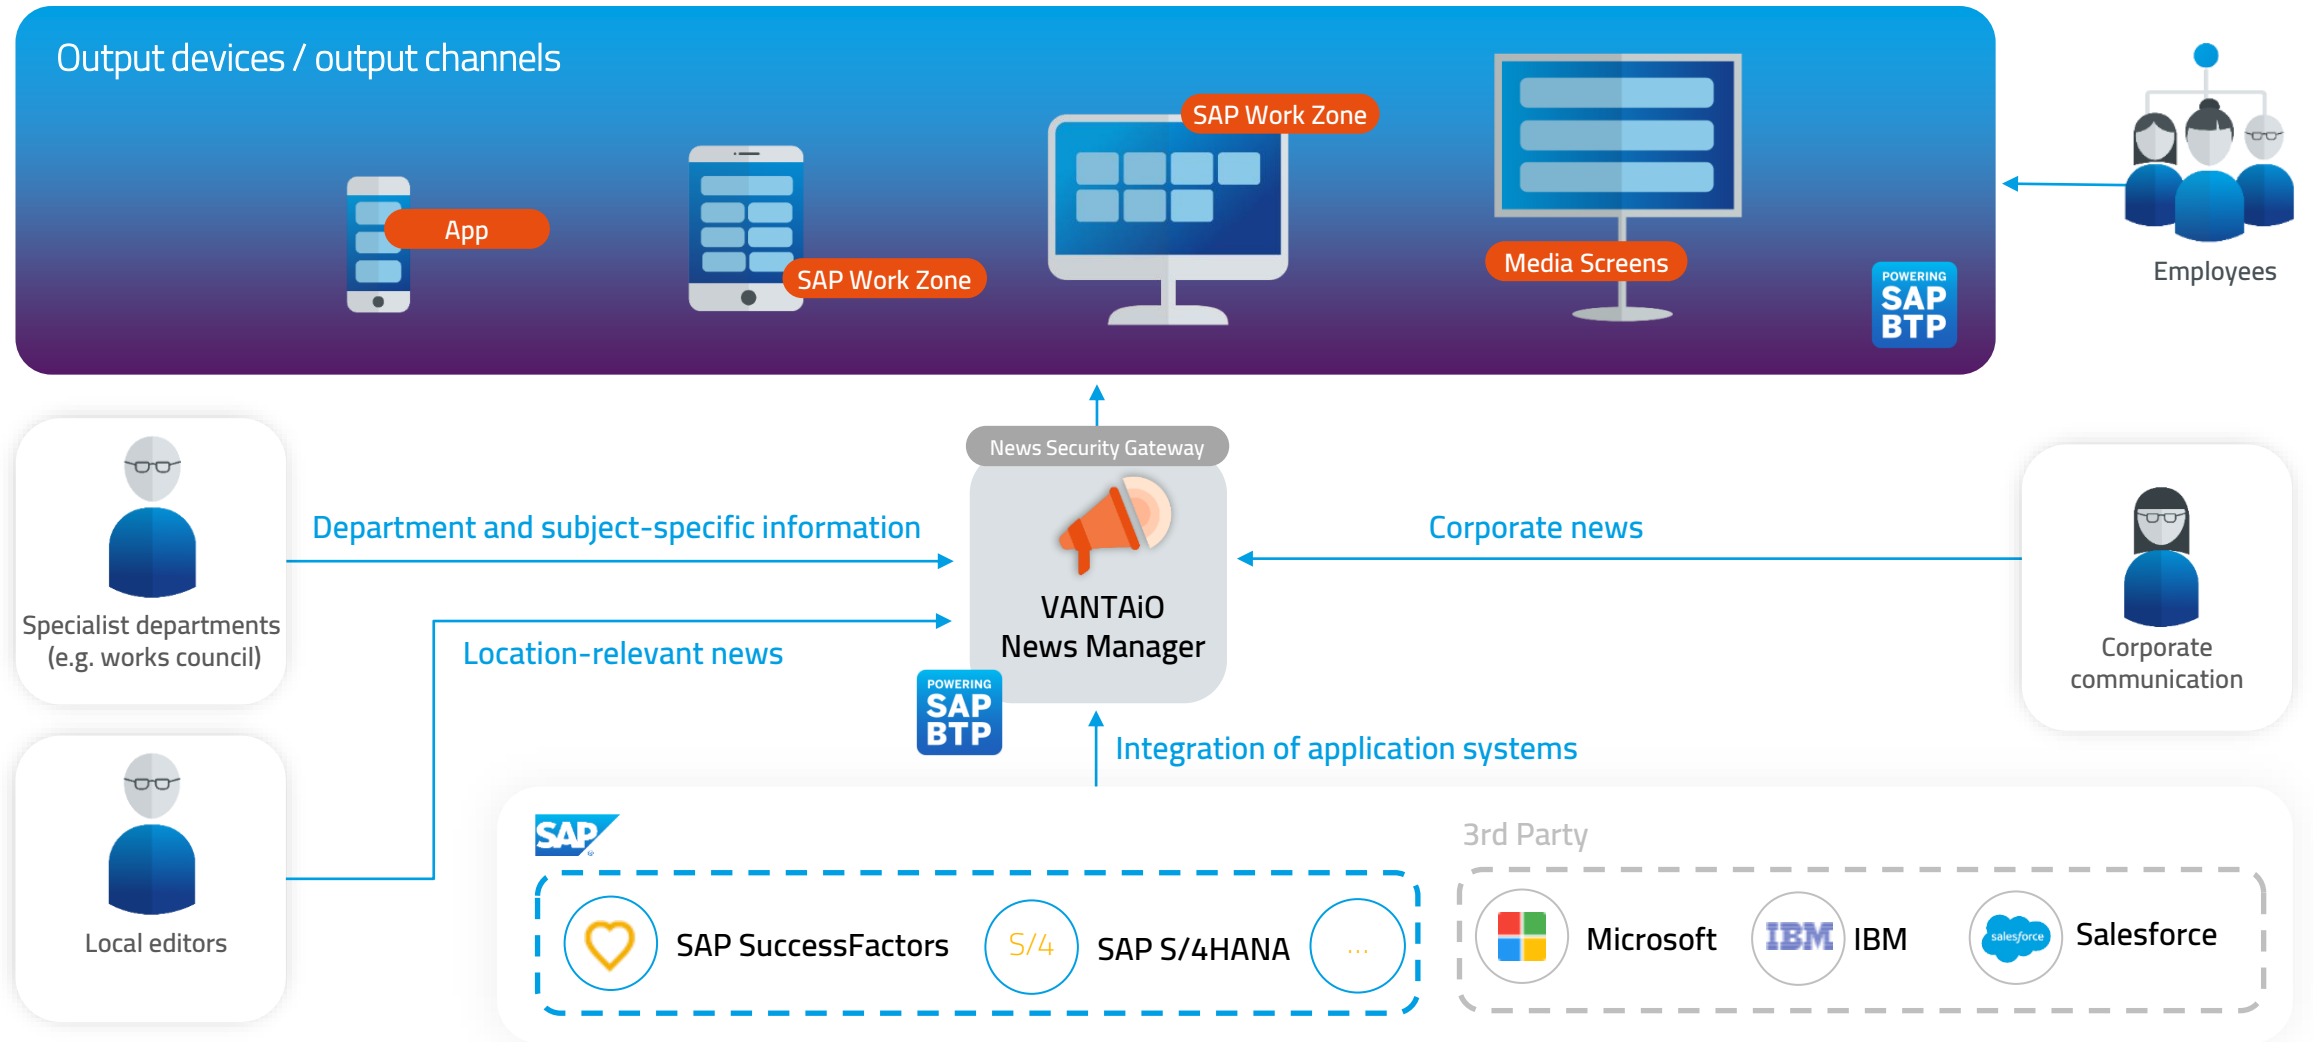

## How would it actually be right?

- 1 Reach all employees of the company
- 2 Reliable and high-quality information
- 3 Attractive look and joy of use in everyday life
- 4 Simple message capture for many "editors"
- 5 Automatic messages from backend systems
- 6 No media disruptions - desktop, smartphone and TV
- 7 Interoperability with existing systems
- 8 Quick and easy commissioning

# VANTAiO News Manager

Intelligent information system for specialist and work communication

# VANTAiO News Manager

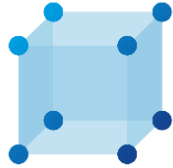

The most important features at a glance

## Multi-device support

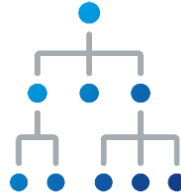

Messages can be displayed in different formats and on different devices, including mobile devices and media screens (TV display required!).

## Any Information objects

Information objects can be created, managed and distributed centrally on the basis of extendable message types (templates).

## Target group oriented Communication

Target group-oriented communication through the use of message groups, channels and tags. This information can be used as a filter, for example.

## Authorization/ Personalization

Support for different authorization groups for end users (who can see what?) and editors (who can create what?)

## High user-friendliness

The News Manager is easy to use for end users, editors and administrators alike!

of the professional and working world

**MOBILE  
VIEW**

VANTAiO  
Blueberry Design

### Access via smartphone

- › Home page SAP Mobile Start App
- › **Integrated** VANTAiO News Manager Apps, Custom Fiori Apps and Success Factors Services
- › The system is **responsive** "out of the box"
- › We use our new VANTAiO theme "Blueberry" here

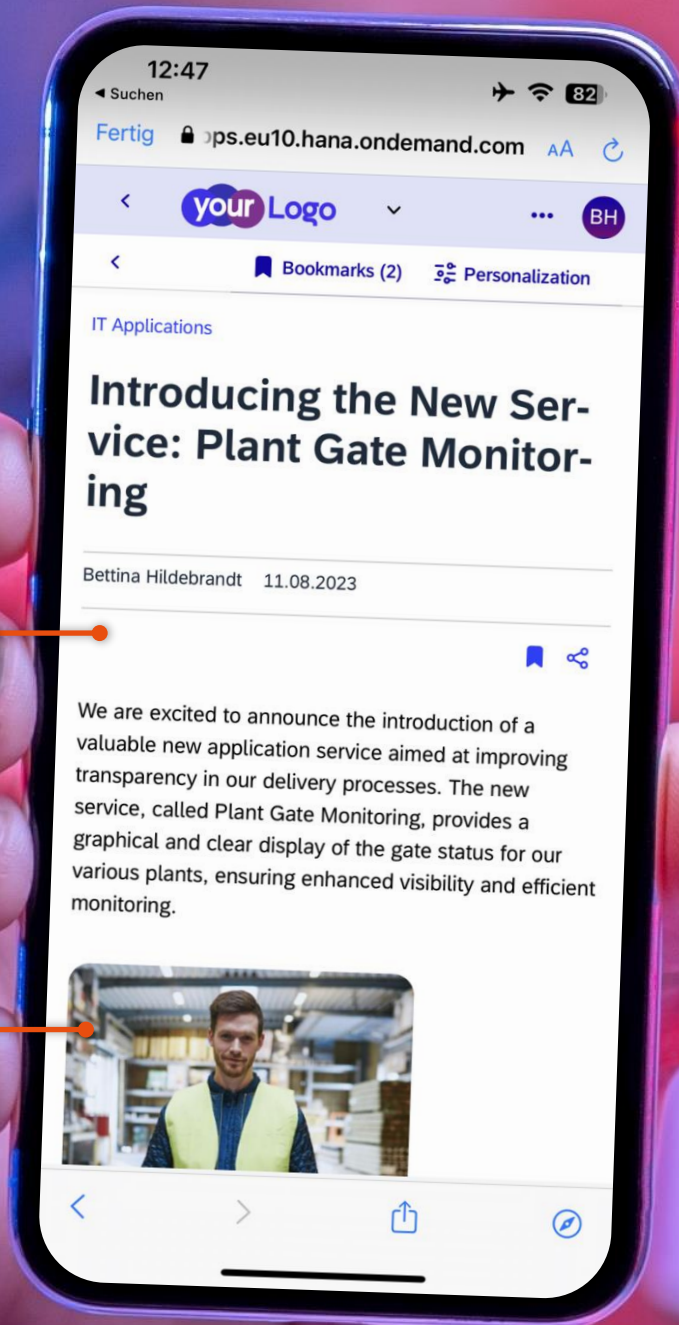

News or information Card

Switch between news with a swipe

### News widget on the mobile start page

- > The message display is **automatically adapted** to the smartphone
- > 'The click mechanism on the desktop is replaced by a **swipe gesture** to switch between messages

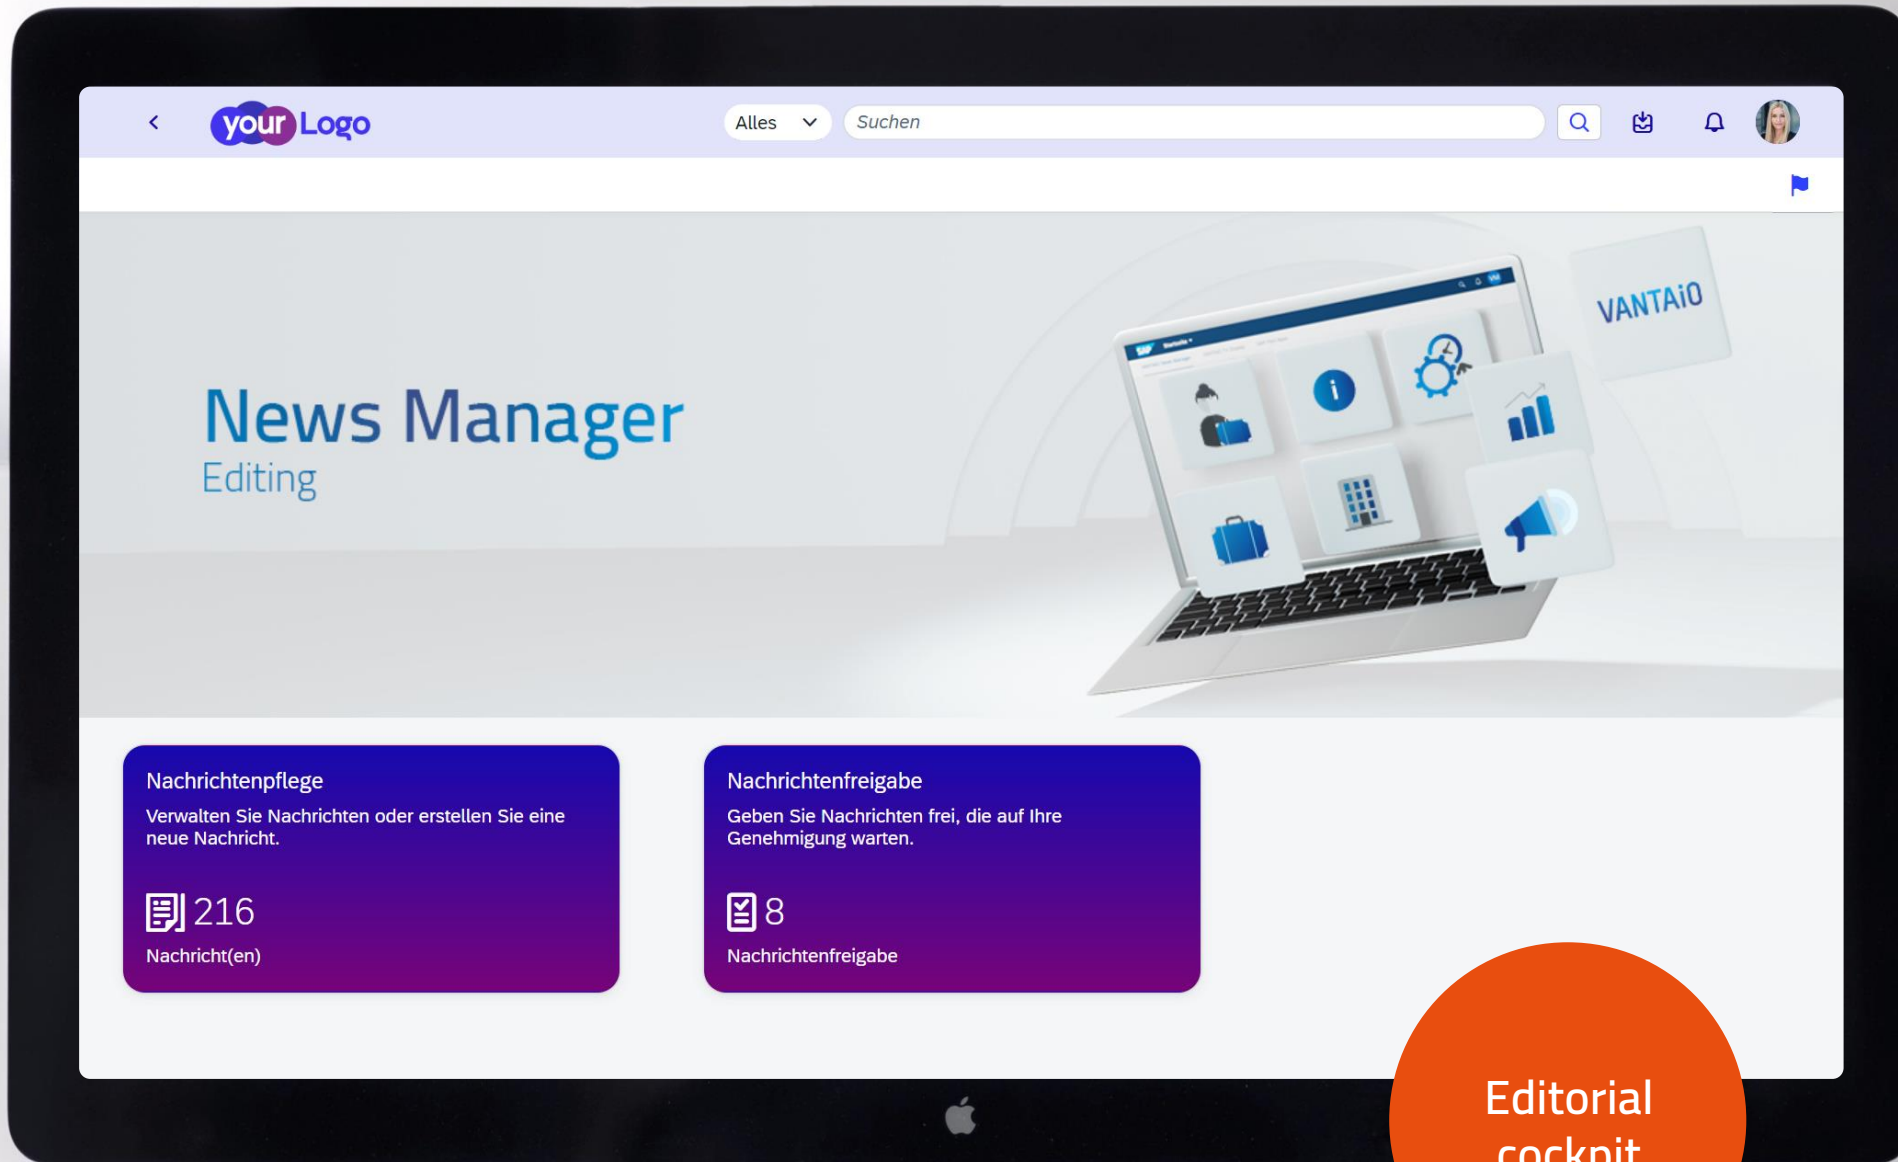

Good readability of messages due to structure

Availability of different formatting options

**Good to know:**

- > News and articles can be designed with **headlines, own text blocks or images**
- > This automatically ensures good **readability**

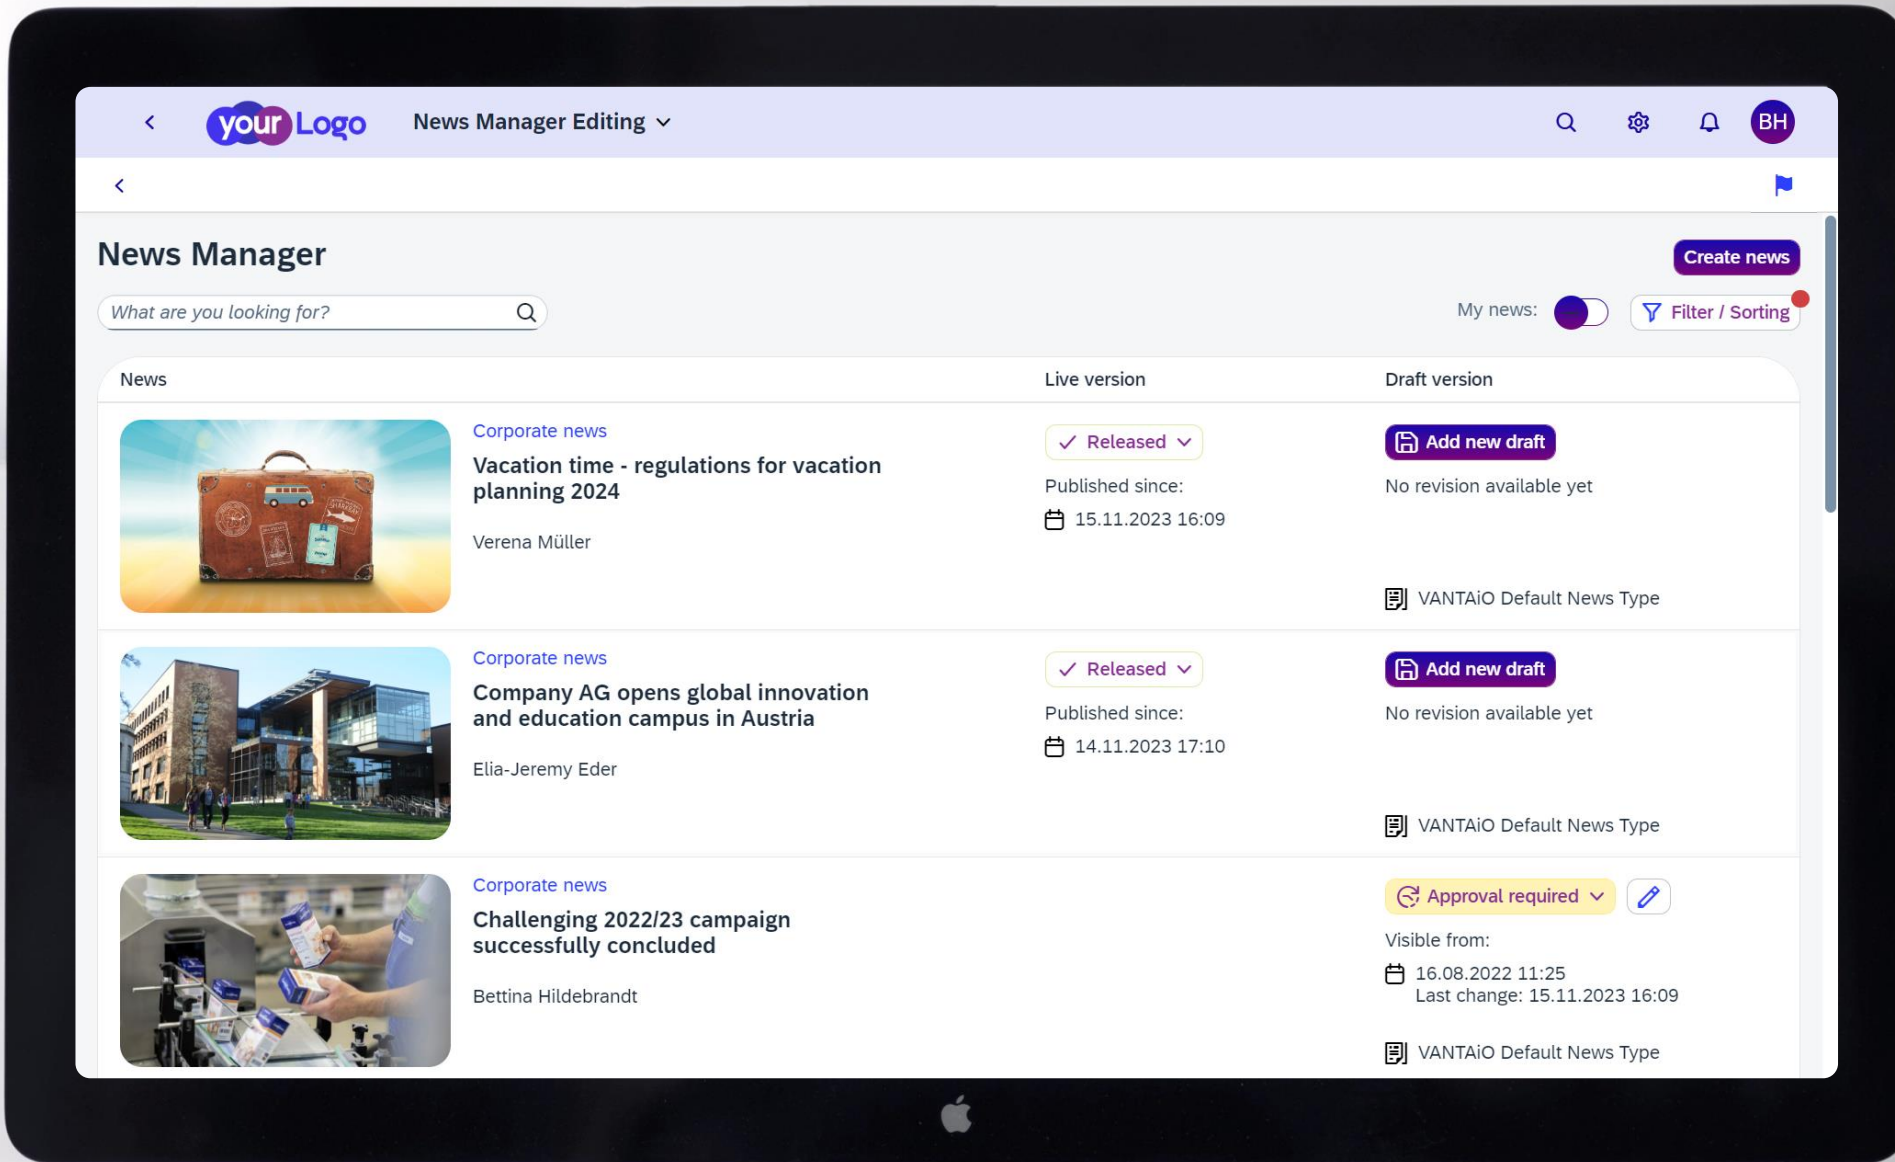

## Cockpit for editors

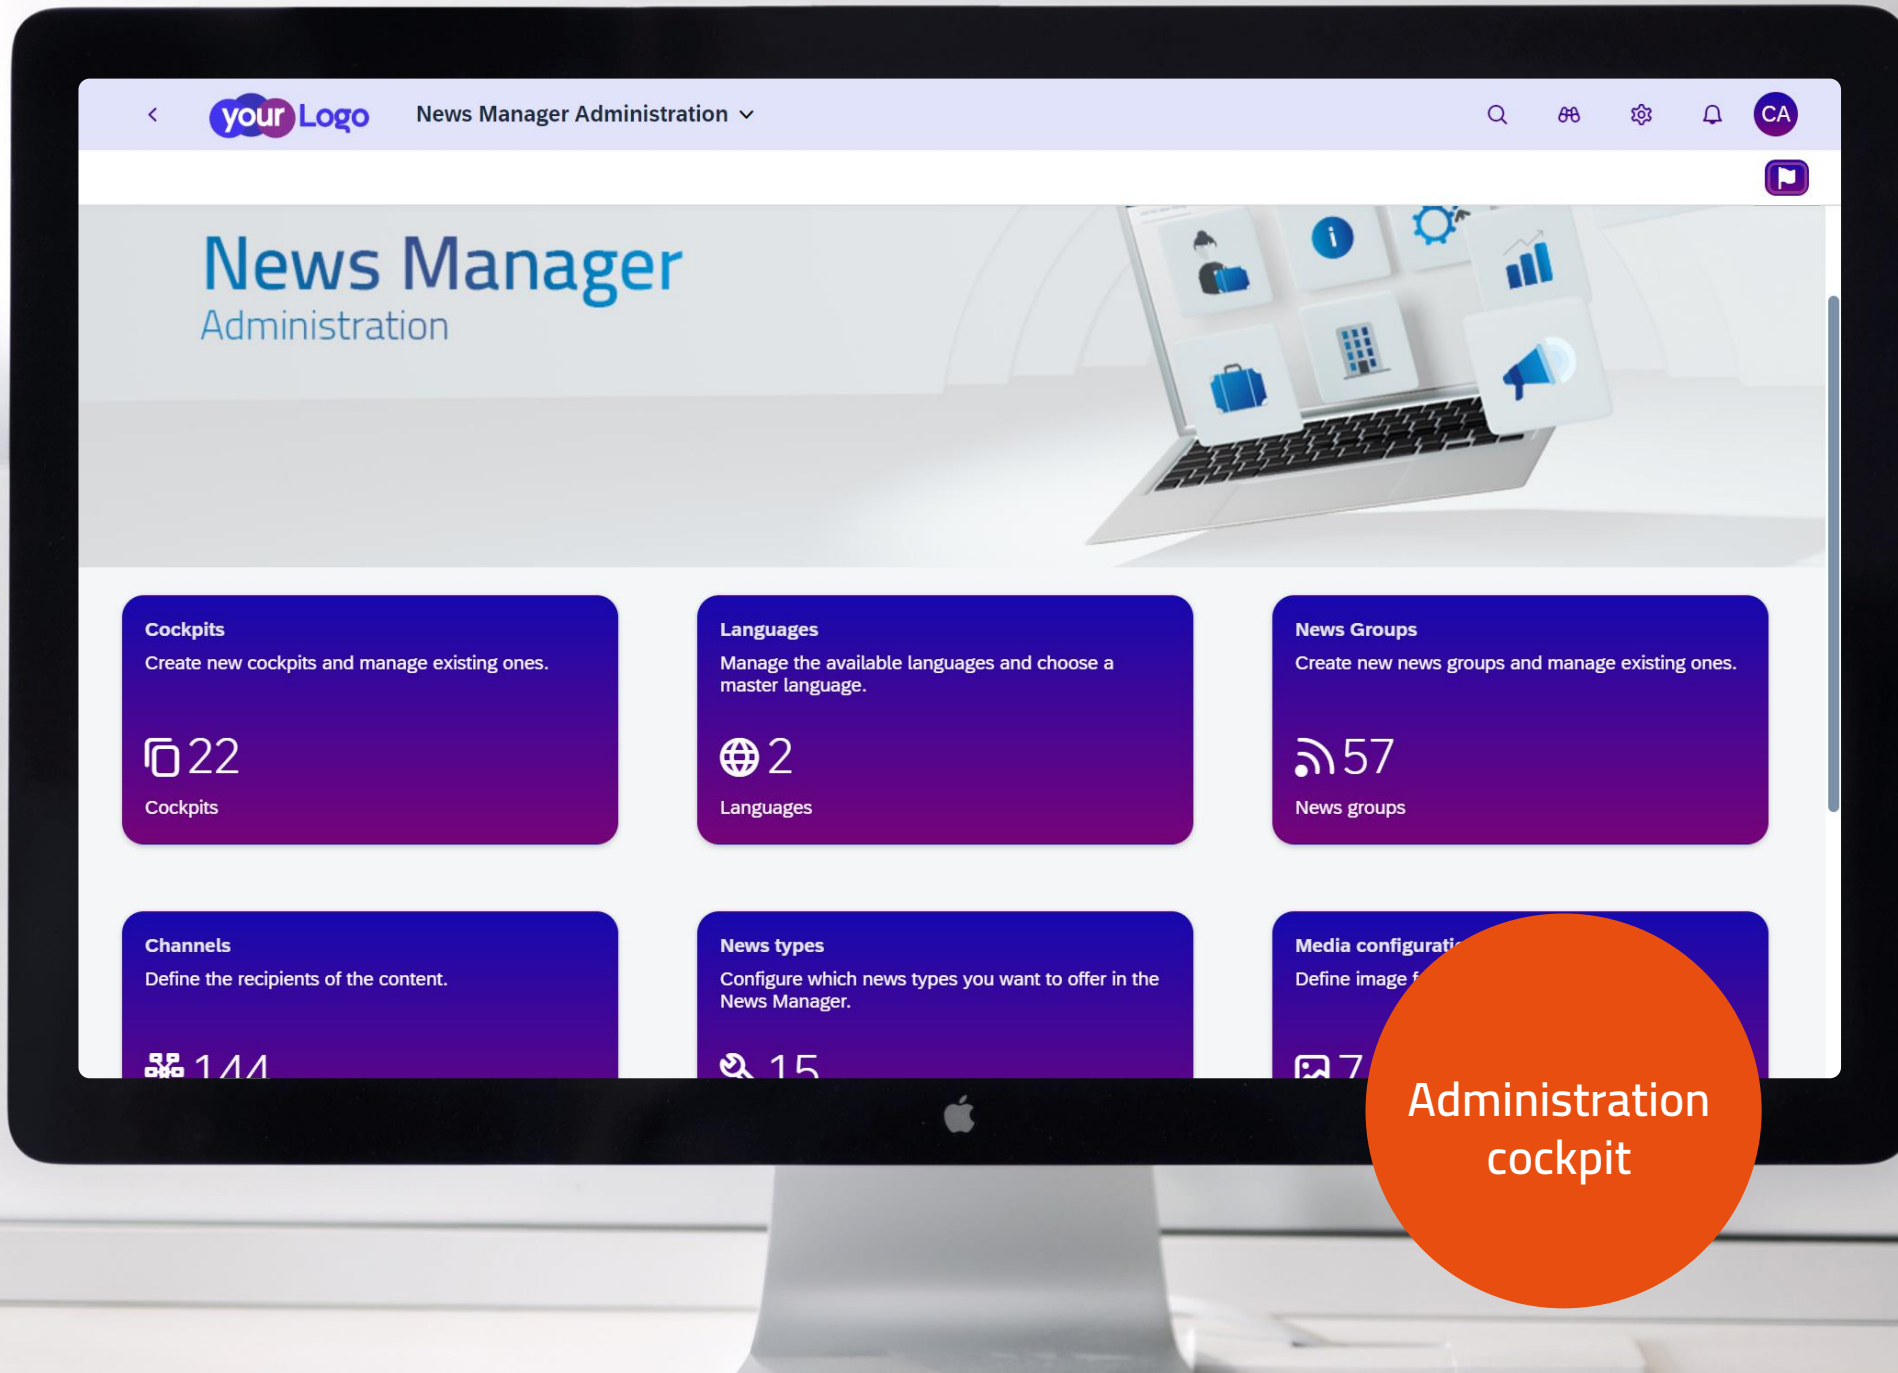

- > Two different views with separate authorization: News maintenance and news release
- > News maintenance is available to editors who are authorized to create messages
- > News release is only available to managers, for example

Editorial cockpit

## Overview of news for editors

- › Editorial cockpit for editors
- › Each editor only sees the objects for which they have editing permission
- › Different authorization levels are possible!
- › Extensive filtering and sorting options
- › Different news types available

## Administration

- > Convenient administration
- > Management of cockpits, languages, message groups etc.
- > Simple modification options without programming

# VANTAiO News Manager

## What makes the software special?

- › **100% SAP standard:** based on SAP Business Technology Platform (BTP)
- › **Process-related messages** , i.e. close connection with SAP business processes & dynamic integration of SAP data
- › **API First approach:** API / JS Library for consuming data from third-party applications & Import API enables deep integration scenarios
- › Predefined **message types** incl. workflow and flexible template system for the implementation of use case-specific requirements
- › The flexibly configurable Content Cockpit provides **intuitive and clear access to information** - without deep navigation levels
- › Hybrid content creation: manual maintenance is combined with **automated data transfer** , e.g. data from SAP systems
- › **Any integration** directly into SAP solutions (Portal, Launchpad, Work Zone), Microsoft Teams or other user interfaces
